

WMF 1200 S

PROFESSIONAL
COFFEE
MACHINES

The entry to the professional world of coffee.

Maintenance can be so easy
Basic maintenance work can be carried out yourself making it rare for the WMF Service Engineer to see your machine.

Plug+Clean
With the patented Plug+Clean milk cleaning system, all milk-carrying parts are cleaned easily and in compliance with HACCP. – Confirmed by the Technical University of Munich.

Delicious Milk Choc and Chociatto
Almost any chocolate / coffee creation with lots of milk can be produced.

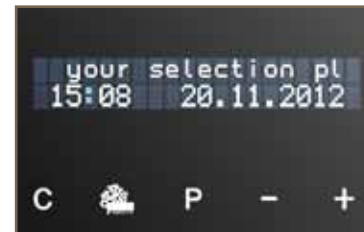

Flexible water pipe
Depending on requirements and situation, a WMF 1200 S can be fitted with a water tank or fixed connection.

Fully automatic cleaning
At the press of a button. Saving time and reducing operating costs.

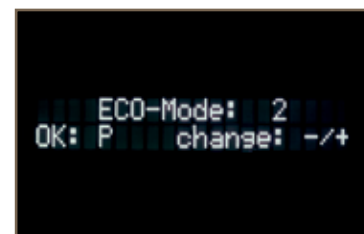

The simple labelling concept
allows individual designs and the easy replacement of button labels with drink names, prices or images.

Keep it simple
All the important functions and parameters can be set using the two-line display and five function keys.

Variable number of drink buttons
A maximum of 6 buttons can be programmed for coffee specialties. Second-level drinks are triggered with a double-click.

Less electricity consumption
With three Eco modes and settings for an automatic switch-off, the customer can adjust their electricity consumption to their individual habits.

Zero-Energy Function
When the WMF 1200 S is switched off, it is "off". This means it does not consume any more electricity.

Dark beauty with impressive, internal values

The WMF 1200 S is a high quality professional coffee machine for small to medium use. It can do anything your heart desires – from Espresso and Café Crème to Cappuccino, Café Latte, Latte Macchiato and even Milk Choc and Chociatto. At the push of a button, reliably and of top quality.

The WMF 1200 S is also entirely made in Germany from high quality materials. Every single machine is tested inside and out before delivery by experts. The self-explanatory display makes the path to your perfect coffee enjoyment child's play.

Equipped with one grinder

Equipped with two grinders

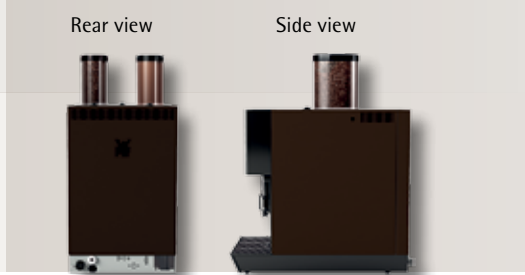

Equipped with one grinder and a Choc container

Equipped with one grinder and a topping container

Customized solution for any situation

Its possible fittings, its range of services and, not least, its price, make the WMF 1200 S the clear favourite for many uses. It is as much at home in the office, medical practice and fitness studio, as in a small bistro or petrol station, bakery or hairdresser's, in a fast food shop or hotel bar. With the appropriate accessories, the machine is a genuine all-rounder.

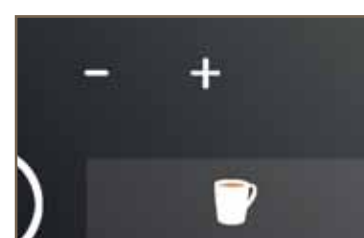

Nominal power rating	2.2 kW
Recommended daily output	Up to 100 cups
Max. hourly output*	Up to 100 cups
coffee bean hopper	500 g
Choc or topping container (optional)	500 g
Mains power connection	230 V
Dimensions (width / height / depth)	324 mm / 682 mm / 554 mm
Empty weight, depending on fittings	Approx. 33 kg
Continuous sound pressure level (LpA)**	< 70 dB (A)

* Depending on cup size, quality settings and flow

** The A-rated sound pressure level LpA (slow) and LpA (impulse) at the workplace of the staff using the machine is less than 70 dB (A) in every mode. From 5° dKH (carbonate hardness), a WMF water filter must be used.

All technical changes, typographical mistakes and errors reserved for the entire contents.

Coffee, just as your customer likes it
By pressing the + or - button for a short or long time, a drink can be selected individually strong or mild, large or small.

Spot on!
Two integrated LEDs underneath the front panel light up the spout and presents your drinks in the proper light.

Hot water at the perfect temperature
produced by the WMF 1200 S, for example for tea, at the press of a button, of course.

Permanent descaling
A filter cartridge in the water tank or a WMF water filter on a mains connection lengths the maintenance intervals, improves the taste and extends the life.

Environmentally friendly, thanks to "Green WMF"
Reduced energy consumption, fewer chemicals and an almost entire recycling capability are just a few of the points of the sustainable WMF concept.

Narrow design
A WMF 1200 S is so narrow that it fits in the double pack space on the smallest counter.

Large ground coffee container
The easy-to-reach, centrally positioned ground coffee container has a large capacity.

Well-designed product containers
The containers can be closed before removal, making cleaning considerably easier.

Height-adjustable spout
The spout is easily adjustable to enable cups from 59 to 169 mm tall to be filled.

Manual insert
It is possible to use other types of coffee, e.g. decaffeinated coffee, by using the manual insert.

The accessories
such as cupboard, milk cooler, one-price coin checker or cup dispenser make the WMF 1200 S a team player – even for self-service.

After Sales Service
WMF covers more than 70 countries with trained service engineers.
