The WMF Presto is the latest milestone in a tradition of coffee machine production dating back to 1927. The experience acquired over the years, particularly in the demanding world of professional catering, has resulted in a machine that stands comparison with any in the world in terms of quality, finish, innovation and design. And it has those typically German qualities of good workmanship, reliability and especially hygiene, something that will be appreciated when it comes to the automatic cleaning programmes, if not before.

Truly a genuine Made in Germany product, but if we may say so, "for the whole world".
