

Technical overview

JURA standards	
Pulse Extraction Process	(P.E.P. ®)
Variable VC brewing unit	from 5 g to 16 g
Intelligent Pre-Brew Aroma System	I.P.B.A.S.®
Electrically adjustable ceramic disc Grinder	2
High-performance pump	2 x 15 bar
Thermoblock heating system	2
Fluid system	2
JURA fine foam technology	■
Milk system	HP2
Integrated rinsing, cleaning and descaling	■
Integrated milk system rinsing and cleaning	■
CLARIS filter	CLARIS smart
Energy Save Mode	E.S.M.®
Zero-Energy Switch	■

Specific advantages	
Individually programmable specialties	28
Automatic Grinder Adjustment	(A.G.A.©)
Intelligent Water System	(I.W.S. ®)
Wifi Transmitter supplied as standard	■
Compatible with J.O.E.®	■
Rotary Switch	■
Automatic switch-over from milk to milk foam	■
Recognition for second, ground coffee	■
Active bean monitoring	■
Monitored drip tray	■
Aroma preservation bean cover in die-cast Zinc	■

Settings and programming options	
Programmable amount of water	■
Programmable / adjustable coffee strength	10 Levels
Programmable Milk / Milk foam temperature	10 Levels
Programmable amount of Milk / Milk foam	■
Save, copy and personalize Products	■
Programmable Temperature of Hot Water	3 Levels
Programmable brewing Temperature	3 Levels
Programmable switch-on / switch-off time	■

Design and materials	
Alu Frame Design®	3 mm
4.3” Display	TFT Color Touch Screen
LED Illumination	Amber / White
Powder chute for ground coffee	■
Sound design	■

Specifications	
Height-adjustable dual spout	69 – 158 mm
Height-adjustable hot-water spout	69 - 165 mm
Water Tank Capacity	2.6 L
Coffee grounds container	ca. 20 Servings
Bean container capacity	560 g
Voltage / Power	220–240 V~ / 2,300W
Stand-by power	< 0.5W
Weight	18 kg
Dimensions (W x H x D)	32 × 41.5 × 48 cm
Article Number Aluminium	15394

JURA GIGA 6 ALU

# JURA GIGA6 Aluminium

This professional machine for household use

JURA is redefining the concept of automatic speciality coffee machines with the GIGA 6. This professional machine for household use is brimming with the latest technology for outstanding results. Made of top-quality materials and with Swiss precision, the GIGA 6's clear design features radiate power and expertise. The impressive quality of the iconic new automatic coffee machine is emphasized by the solid front section made of 3 mm-thick aluminium. Operating this masterpiece of Swiss engineering is completely intuitive thanks to the touch-screen display and the Blue Crystal Rotary Switch, and the icing on the cake is that coffee lovers can choose from 28 different specialities. 5-star handling on a whole new level is made possible by artificial intelligence and the ingenious design, which has been carefully considered right down to the last detail.

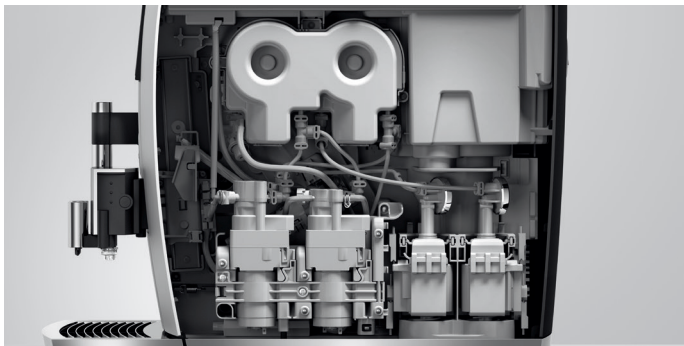

With the GIGA 6, artificial intelligence is finding its way into the operation of the machine. The 4.3" high-resolution touchscreen colour display only shows the user relevant information. Images and Symbols are self-explanatory, well thought out.

The two electronically adjustable Ceramic Grinders are precision made using an incredibly hard material so that they can grind the coffee to the optimum fineness. Automatic Grinder Adjustment delivers phenomenal results every time.

JURA's new pride and joy can even prepare two specialities simultaneously if desired. Milk and milk foam can be tailored exactly to your individual taste and programmed in 10 Temperature Levels.

With the optimised fluid system and a completely new inner Built, Hygiene, Sound Levels as well as Servicing of the Machine have improved tremendously. To see inside the Machine is a feast for every Technician and Layman as well.

# JURA GIGA 6

Perfection, precision and professionalism in a new dimension
